

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Serial No. 2763

Date of first receipt and filing in State Engineer's office AUG - 4 1913
Returned to applicant for correction _____
Corrected application filed _____

The undersigned Reno, Power Light & Water Company,
Name of applicant.
of Reno, County of Washoe,
State of Nevada, hereby make s application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.) State of California,

1. The source of the proposed appropriation is _____
Name of stream, lake, or other source.
Truckee River (Katz Ditch)
2. The amount of water applied for is 13.8 second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for irrigation
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: (This application is one for permission to change the
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
point of diversion, see Supplemental sheet)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about _____ and end about _____
Month.
_____, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE
FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____
6. Estimated time required to construct works _____
7. Remarks _____

_____, State Engineer.

SUPPLEMENTAL SHEET.

SERIAL NO. 2763.

Application for permission to change the point of diversion
of the Public Waters of the State of Nevada.

-oOo-

Date of first receipt and filing in State Engineer's Office,
AUG. 4, 1913.

Returned to applicant for correction: _____

Corrected application filed: _____

The undersigned, Reno Power, Light & Water Company, a corporation organized and existing under and by virtue of the laws of the State of California and doing business in Reno, Nevada, and vicinity, hereby makes application to Change the Point of Diversion of the Katz Ditch from the intersection of the south boundary of SE $\frac{1}{4}$ of NE $\frac{1}{4}$ Sect. 18, T. 19 N.R. 18 E, with the east bank of Truckee River to the dam and head works of The Truckee River General Electric Company in the SW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 8, T. 19 N.R. 18 E. The Katz Ditch was constructed and land first irrigated during the irrigation season of 1862. See statement of E.J. Brickell and W.H. Kruger dated August 30, 1889, Records of Washoe County, Book F. Miscellaneous Records page 242.

The Truckee River General Electric Company's power ditch was constructed under permit of the State of Nevada, Number 1475, with changes as given in Permit No. 2370. / 77

Purpose of change in point of diversion.

The change is made to discontinue maintenance of 1500 feet of flume and ditch of side hill construction, which parallels the power canal.

Amount of water used.

The amount of water appropriated is 13.8 cubic feet per second, which has been used continuously from April first to October first of each and every year since 1862. The area irrigated is eighty (80) acres, in the South half ($\frac{1}{2}$) of Section Eight (8), T. 19, N.R. 18 E., M.D.B & M.

Proposed change in point of diversion.

The water used from the Katz Ditch, amounting to thirteen and eight-tenths (13.8) cubic feet per second, is to be diverted from the Truckee River by means of the dam and head-works of the Truckee River General Electric Company, and conveyed through their canal to the point where section lines between Sections 8 and 17 intersect power canal and diverted at the intersection with the section line into a ditch 2000 feet long, which intersects Katz Ditch at west end of irrigated land..

Water will not be returned to stream.

Estimated cost of proposed works, \$200.

Estimated time required to construct works, one month.

Remarks:-

We have obtained permission from The Truckee River General Electric Company to use their canal to convey the flow of thirteen and eight-tenths (13.8) cubic feet per second required by the ranch.

RENO POWER, LIGHT & WATER CO.

By Geo. A. Campbell,
Manager.

1763

APPROVAL.

This permit to change the point of diversion of waters heretofore appropriated is granted with the following limitations and conditions:

The area of land to be irrigated is 65.62 acres, this amount having been found by the State Engineer to have been heretofore irrigated from the Katz Ditch.

The quantity of water allowed to be diverted is that necessary to irrigate 65.62 acres of land. (The quantity in second feet is omitted here owing to the pending determination by the U.S. Government by suit in the Federal Court, Nevada District. The quantity in second feet will be inserted in the final certificate.)

Actual construction work shall begin on or before May 20, 1914.

Proof of commencement of work shall be filed before June 20, 1914.

Work must be prosecuted with reasonable diligence and be completed on or before June 20, 1914.

Application of water to beneficial use shall be made on or before October 20, 1914.

Proof of application of water to beneficial use must be filed with the State Engineer on or before November 20, 1914.

WITNESS MY HAND AND SEAL this 10th. day of December, 1913.
